

Project Deliverable

Description

I will create a resume website as a part of my personal website on this project. The main idea is to turn my resume into a website, along with some pages to showcase some of my work from the class, career, and own hobby. There are other functions of this site that it will be used as my website landing page that let the user go to other services of my website like WordPress blog and many other.

Content Plan

Website.com/index.html

- Hyperlinks to several other services
 - o Text
 - o Images
 - o Hyperlinks

Website.com/resume

- The resume of me
 - o Text
 - o List
 - o Images
 - o Hyperlinks

Website.com/resume/project-1 or Website.com/resume/[project-name]

- A description of my project possibly will have two projects of mine.
 - o Text
 - o List
 - o Images
 - o Video

Website.com/resume/career

- Provide more information on my working experience
 - o Text
 - o List
 - o Images
